

Internship scholarship program for foreign students

Application form

Program objectives

An international scholarship program is available to international students for an internship in the laboratories of Université Laval researchers participating in research projects funded by Sentinel North's research program. Through this program, Sentinel North seeks to attract new talent, foster the development of young international scientists able to tackle and help resolve complex northern issues, and encourage the sharing of knowledge and experience across borders.

More specifically, the program aims to encourage international students to:

- Contribute their expertise to research projects funded by Sentinel North;
- Establish ties by taking advantage of exceptional research and networking opportunities in Université Laval's laboratories;
- Help increase opportunities for collaboration between Université Laval and their home institutions abroad

Who it is for

Full-time Master's and Ph.D. students at universities outside Québec (starting from the second year of their graduate program).

Eligibility criteria

Applicants must also meet all the following conditions to be eligible for the program:

- Be invited by a regular Université Laval professor involved in a research project funded by Sentinel North, who agrees to supervise the applicant during their study period at Université Laval;
- Propose a two- to six-month internship at Université Laval whose objectives are consistent fit within Sentinel North's research program as illustrated in its conceptual framework.

To remain eligible for funding during an internship at Université Laval, applicants must maintain full-time student status in their graduate studies program at their home university.

Application procedure

You must send your application and all required documents listed below in one email to formation@sn.ulaval.ca. The subject of the message must begin with your last name and first name, and clearly state the name of the scholarship program you are applying for.

- Your short résumé (up to two pages);
- A copy of your university transcripts (bachelor's and Master's degrees and the Ph.D. program in progress);
- A recommendation letter from your UL supervisor or co-supervisor justifying the relevance and added value of the internship to your academic progress.

Full instructions for submitting an application and detailed program conditions are available on the Sentinel North website. For more information on Sentinel North scholarships, please contact: Marie-France Gévry, Training programs coordinator at SN (marie-france.gevry@sn.ulaval.ca).

Part A – Student information

A1) Identification of candidate

Last name		First name	
Complete address			
Phone	E-mail	Citizenship	

A2) Language Skills — For each language, specify the level of proficiency (beginner, intermediate, advanced) in each of the following areas

Language	Spoken	Written	Read

Part B – Academic information

B1) Information on studies

Current curriculum :	
Discipline :	
Institution/University :	
Start date of your training in this program (month/year):	

B2) Information about your current research project

Project title :			
Identify two fields of application that match the research activities in your application :			
Identify your current supervision team at your host institution			
Research supervisor	Name :		
	Affiliation :		
	Phone :		E-mail :
Research co-supervisor	Name :		
	Affiliation :		
	Phone :		E-mail :

C1) Information on the host institution

Supervisor of the internship at Université Laval	Name :			
	Affiliation :			
	Phone :		E-mail :	

Specify the name of the host research group, laboratory or research center, if applicable

--

Specify the research projects funded by Sentinel North involving your internship supervisor

--

C2) Internship description

Internship period (semester(s)) :		Length of the internship (months) :	
-----------------------------------	--	-------------------------------------	--

Describe the principal components of research activities planned during your stay abroad based on the following sections.

Context and objectives (maximum 2,200 characters, including spaces) :

--

Methodology, timeline and expected outcomes (maximum 2,200 characters, including spaces) :

--

C3) Justification of the application

Justify your application by explaining how the internship ties in with the main topic of your research project and the potential benefits that you would derive from working at or attending the host institution in relation to your current research objectives. (maximum 3,000 characters, including spaces)

Explain the multidisciplinary nature of the internship and how it relates to the Sentinel North research program and conceptual framework . (maximum 3,000 characters, including spaces)

Part D – Budget

D1) Estimated cost of the internship

Category	Type of expenditure	Amount (CAD)	Sub-total
Travel expenses :	International transport :		
	Local transport :		
	Visa fees :		
Living expenses :	Monthly allowances :		
	Length of stay (months) - see C2:		
Other expenses :			
TOTAL costs :			

D2) Other confirmed or pending sources of financial support your participation in this internship

Scholarship or award name	Organization / Program	Amount	Application status

I confirm that the information provided in my application is complete and accurate and that I have read and understand the eligibility conditions and detailed program conditions available on the Sentinel North website (www.sentinelnorth.ulaval.ca). I also agree to participate in a knowledge transfer activity organized by Sentinel North during my internship.
